

## THE ELECTIONS.

## SWIFT AND VANDEVER STILL IN THE LEAD.

The Republican victories in the Eastern States confirmed Morrison's defeat in Illinois. Conceded the Count in California Proceeding Very Slowly.

[By Telegraph to THE TIMES.]

SAN FRANCISCO, Nov. 3.—[By the Western Associated Press.] Additional returns are fast pouring in this morning from all counties of the State, but none of them are anywhere near being complete. The Republicans confidently claim victory for Swift for Governor. Their estimates run from 3000 as high as 5000. The Democrats are equally confident that Bartlett has carried the State. They claim that the San Francisco count will sweep away Swift's small majorities in the county. The Republicans also claim to have five of the six Congressional districts, the Fifth they consider in doubt; and they are also claiming a small majority on joint ballot of the Legislature. No figures have yet come in on which to base anything like a correct estimate of the next Legislature. The election of Pond, Democrat, for Mayor of this city, is generally conceded.

SAN FRANCISCO, Nov. 3.—Two hundred precincts, not including San Francisco, give Swift 12,875, Bartlett 11,567, Wigginton 65, O'Donnell 547, Russell 22, Cox 30.

SAN FRANCISCO, Nov. 3.—One hundred and eighty precincts outside of San Francisco give Swift 11,760, Bartlett 11,567, Wigginton 65, O'Donnell 547, Russell 22, Cox 30. The count in the city is progressing very slowly. It is impossible to give anything definite as to the result at this hour—2:30 p.m.

## SWIFT HOLDING HIS OWN.

SAN FRANCISCO, Nov. 3.—Up to noon today there had been counted 375 precincts. Bartlett has 5544, Swift 4880, Wigginton 860, O'Donnell 582. This gives Bartlett 664 plurality on about one-third of the total vote cast. If this ratio is maintained Bartlett will go out of the city with about 3000 plurality, which will not be sufficient to overcome Swift's plurality in the city. As far as counted, Pond, Democratic candidate for Mayor, has a plurality over Dobie (Rep.) of 1086, which will carry him.

SAN FRANCISCO, Nov. 3.—Five p.m.—Two hundred and ten precincts outside of San Francisco give Swift 13,904, Bartlett 15,630, Wigginton 36, O'Donnell 562, Russell 1194, Cox 30.

## GEORGE'S DOWNFALL.

How the Workingmen's Leader Regards His Defeat.

NEW YORK, Nov. 3.—[By the Western Associated Press.] When late last night it was known at the headquarters of the Central Labor Union that Henry George was defeated the crowd there assembled gave expression to disgust. George came into the hall at 11 o'clock and mounting a table addressed his supporters, saying that he felt proud that if he held in his hand official returns making him President of the United States. Their devotion to the great cause was felt certain that under a fair count of ballots he would be the next Mayor of New York.

"If the official returns do not give me that office," he said, "it is because of money and intimidation used, and of run shops, of the State and national legislation, an unscrupulous power, the unreasonable fear of the ignorant rich, and the degradation of the miserable poor. What we sought we accomplished by bringing principle into politics." He went on to say: "I congratulate you on the greatest of victories that we have won. Thank God we have demonstrated the political power of labor. Never again will politicians look upon the labor movement with contempt. You men who have waited night and day without a penny gain under what disadvantages this struggle has been made. You know what we have enabled us to do, and if this is the beginning what will be the end? I thank you from the bottom of my heart for I feel prouder than if you had given me the highest office in the land."

Hotel Burned—Three Lives Lost. LAGOS (Ind.), Nov. 3.—At 3 this morning the Ackerman Hotel, a two-story frame building was burned and three men perished in the flames. They were forgotten in the excitement until too late to save them. Two of them were John C. Gates and Michael Tracy, who were yesterday elected Treasurer and Auditor, respectively, of Martin county.

## Society.

SAN FRANCISCO, Nov. 3.—Joseph H. Ballard, an elderly married gentleman, committed suicide in the Hotel Bella Vista today by shooting himself in the head with a revolver. The cause was depression of health and spirits.

## EASTERN RETURNS.

## Republican Successes Confirmed—Morrison and Carlisle Defeated.

ST. LOUIS, Nov. 3.—[By the Western Associated Press.] The chairman of the Democratic State Central Committee is confident that the Democrats carry twelve of the sixteen Congressional districts in the State, possibly more. He concedes that four districts—the Fifth, Ninth, Tenth and Thirteenth—are very close. The outlook is favorable to the Republicans in the Ninth and Thirteenth. Other members claim a solid delegation. The Missouri Republican, a Democratic paper, concedes the defeat of Glover in the Ninth district, and claims the election of Phillips in the Fifth and Craven in the Thirteenth. Returns on the State and Legislative tickets are of a more meager description. No estimate can be made yet with a show of accuracy. Nine out of eleven wards in the Ninth district give Frank, Republican, 5098, Glover 4941. Both parties claim the election. Six of eight wards in the southern part of the city, which belong to the Democratic ticket, give Clardy, Democrat, 1302, Lederberger, Republican, 1203 and Ratcliff, Labor, 1800. Lederberger's majority is now 83, but there are eight Democratic counties to hear from.

ST. LOUIS, Nov. 3.—Twenty precincts of the Fourth ward, with but one more to report, give O'Neill, Dem., in the Eighth district for Congress, 1165, Cummings 973, Ward 10.

ST. JOSEPH, (Mo.), Nov. 3.—In the Fourth district J. M. Burns, Dem., is returned to Congress by a vote several hundred in excess of the usual majority. Alchison, Kans., returns from ten precincts of the twenty-six in the county give Moonlight, Rep., 1075, Alchison 1000, a majority of 306, Norrell and Belin, for Congress, run about even.

ST. LOUIS, Nov. 3.—The returns from yesterday's election are still incomplete, but enough has been received to show that the entire Democratic State ticket is elected.

## MORRISON DEFEATED.

ST. LOUIS, Nov. 3.—The latest returns from the Illinois Eighteenth Congressional District, which has been defeated by John Baker, Republican.

ST. LOUIS, Nov. 3.—It is stated here that Morrison concedes his defeat.

## INDIANA REPUBLICAN.

INDIANAPOLIS, Nov. 3.—At 10 a.m. the returns indicate the election of the Republican State ticket. The Legislature will probably stand six Republicans and seven Democrats, a Republican gain of three.

INDIANAPOLIS, Nov. 3.—One hundred precincts give Robertson (Rep.) for Lieutenant Governor, 11,104, Nelson (Dem.) 9777. The same number of precincts gave Blinn 11,500, Cleveland 10,665.

BOSTON, Nov. 3.—Eighty-eight towns in New Hampshire give Sawyer (Rep.) 10,307, Concord (Dem.) 10,385, Westworth (Pro.) 105. Democrats gain 84.

MASSACHUSETTS PROBABLY REPUBLICAN. BOSTON, Nov. 3.—It is conceded that Ames, Republican candidate for Governor, is elected by at least 5000 plurality. The vote will be increased by complete returns. Two hundred and forty-seven towns complete give Ames 109,211, Andrews (Dem.) 94,328.

BOSTON, Nov. 3.—The vote for Governor is very close. Indications favor the election of Ames (Rep.) by 5000 plurality.

## MINNESOTA RATHER MILD.

ST. PAUL, Nov. 3.—At last night one hundred precincts, including one in St. Paul, gave McGill, Republican, for Governor, 100 majority. In the First Congressional district, a small majority. The second district will give Republicans by a large majority. In the third district four precincts give McDonald, Democrat, 400 majority. Returns are coming in slowly.

THE VOTE IN NEW YORK. NEW YORK, Nov. 3.—Twenty hundred and sixty-one election districts outside of New York and Kings counties give Packham, Democrat, 124,377, Hamilton 124,377, Daniel, Republican, 124,137. The same districts last year gave Hill, Democrat, 124,137, Hamilton 124,137.

WISCONSIN'S LEGISLATURE REPUBLICAN. MILWAUKEE, Nov. 3.—It is estimated that the Republicans will have a majority of from 30 to 35 on joint ballot in the Legislature. Milwaukee has the county labor ticket made a clean sweep, electing the entire county ticket and one Congressman.

NEVADA'S BIG MAJORITY. PHOENIX, Nov. 3.—The latest figures give Beaver a plurality of 40,380.

PHOENIX, Nov. 3.—The Republican State ticket is elected by 40,000 plurality. The Legislature will be unopposedly Republican in both branches, and they will have close upon 130 majority on joint ballot.

THE RESULT IN CONNECTICUT. NEW HAVEN (Conn.), Nov. 3.—The Legislature stands, Republican 57, Democratic 46. Vance, Republican Congressman, is elected in the First district.

HARTFORD, Nov. 3.—With very few returns in reach—leading race is between 14 Republicans to 10 Democrats, a Republican gain of 1. The vote for Governor, Seymour, Republican, 52,909; Cleveland, Democrat, 52,901.

CARLISLE CONCEDES DEFEAT. CINCINNATI, Nov. 3.—Speaker Carlisle concedes his defeat in his Kentucky district.

## MICHIGAN REPUBLICAN.

DETROIT, Nov. 3.—Two hundred and twenty-one precincts give Luce, Republican, for Governor, 34,634; Yaple, Democrat, 33,321.

## COLORADO DOUBTFUL.

DENVER, Nov. 3.—The indications are that Adams, Democrat, has been elected Governor by a small majority, and possibly Myron W. Reed, for Congressman, is elected.

THE COUNT IN ILLINOIS. CHICAGO, Nov. 3.—Fourteen precincts give Turner, Republican, for State Treasurer 12,138, Ricker, Democrat, 10,926.

DELAWARE ELECTS BRIDGE. WILMINGTON, Del., Nov. 3.—Briggs (Dem.) for Governor has a majority of over 5000.

SOLIDLY DEMOCRATIC. NEW ORLEANS, Nov. 3.—Indications point to a solid Democratic delegation to Congress from Louisiana.

Picked Up at Sea. NEW YORK, Nov. 3.—A schooner which arrived to-day from Charges, via Key West, reports that on October 14th, fifty miles south of Dry Tortugas, she picked up the captain and four seamen of the bark Tree Aurora, from Barcelona for Havana. They were on a piece of the cabin house, they having been five days in that condition without food or shelter. The captain stated that the bark broke up and sunk October 10th, during a hurricane. The balance of the crew, seven men, are supposed to have gone down with her.

Police Pickings. John Shannon was fined \$5 yesterday for being drunk and disorderly. The Mayor's court disposed of seventeen cases yesterday. Plain drivers are no longer picked up, but released as soon as sober. Ad Sam was fined \$5 for fast driving. The police report a lot of carpenter tools stolen at Beaudry's levee on Tuesday night. The police watch will change beats next Sunday.

## CARLISLE'S DEFEAT.

## THE SPEAKER DOWNED BY A LABOR AGITATOR.

The Result Regarded as the Political Sensation of the Day—Democrat Disgust and Workmen's Votes Too Much for Kentucky's Favorite Son.

[By Telegraph to THE TIMES.]

CINCINNATI, Nov. 3.—[By the Western Associated Press.] The startling fact of the defeat of Speaker John G. Carlisle was foreshadowed in the returns received last night. His successful competitor is George H. Thoburn, a native of Kentucky, though of foreign parentage. He is an artist in wood carving, and has been engaged in furniture manufacturing in this city. He is described as an agitator fit to be a leader among the workmen. There was so little general knowledge of the extent of his popularity that no one dreamed of his election. It was said by the Covington Commonwealth, a few days before election, that Thoburn had a strong following among the workmen, based entirely upon their objection to the free trade leading of Carlisle. It was in fact a surprise, and other papers indicate that Carlisle suffered seriously from Democratic disaffection, growing out of his course in relation to government appointments in his district.

## THE CLOSE STATES.

Indiana Republican—No Choice for Governor in New Hampshire.

INDIANAPOLIS, Nov. 3.—[By the Western Associated Press.] At Democratic headquarters at noon it was stated that their private advices corroborated the figures indicating that the Republicans had elected their State ticket. They will claim the Legislature by three majorities on joint ballot. Senator Harrison says the Legislature is undoubtedly Republican. Congressman Steele, according to latest advices, has carried the Eleventh district. This makes six for the Democrats for the Republicans to six for the Democrats, a gain of three for the former.

## NO CHOICE FOR GOVERNOR.

CONCORD (N. H.), Nov. 3.—There has been no election of Governor by the people. Sawyer (Rep.) and Colver (Dem.) for Governor running remarkably close. McKenny (Dem.) is elected to Congress in the First district. Over Hargens (Rep.) Gallagher (Rep.) is re-elected to Congress in the Second district. In the State Senate the Republicans will have 14 members and the Democrats 12. In the House the Republicans will probably have 30 to 35 majority. This insures the election of a Republican United States Senator to succeed Pike.

## SWIFT'S SPECIFIC.

Nature's own remedy, made from roots gathered from the forests of Georgia. The method by which it is made was obtained by a half-breed from the Creek Indians, who inherited a certain portion of Georgia, which was communicated to one of the early settlers and thus the formula has been handed down to the present day. The demand has been increasing until a few weeks from October 15th, a factory was built to supply the trade. A foreign demand has been created, and enlarged facilities will be necessary to meet it. ## HITCHING HORSES IN THE STREETS.

LOS ANGELES, Nov. 3.—[To the Editor of THE TIMES.] The city ordinance allowing horses to be hitched for one hour during the day at any one place on our principal business thoroughfares should be in the interest of common humanity promptly repealed. Passing by for the present the very grave questions of injury to the public health, of the obstruction to public trade and travel, and the standing personal danger to the public at large consequent upon the careless exercise of this well intended, but injudiciously conferred, privilege, the glaring absurdity of the ordinance may be found in the fact that when a horse is hitched for one hour at a particular place on the street he may then be unhitched and moved a few feet to another point where he may be again hitched for another hour and so on from place to place at the end of each hour for the remainder of the day. To exercise of this dangerous privilege may be traced the recent horrible death of the innocent little infant who while sleeping in his baby carriage was cruelly mangled and crushed beneath the eyes, beneath the hoofs of a frightened horse, while hitched to the curbing on one of our principal business streets. Why, sir, I heard a gentleman of prominence state, no less a resident of this city, that his first impression of our city from seeing horses attached to every conceivable make and shape of vehicle and hitched during business hours to the curbing or to weights on either side of these streets for many squares in extent, was to the effect that Los Angeles was a big, overgrown country town, whose public places were either of the Mexican granger or the native American order or both. While this impression, when considered in relation to these officials is in point of fact without foundation, yet it cannot be denied that such appearances are sufficiently plausible to justify to some extent at least the formation of very decided opinions in that direction. Our people have the fullest measure of confidence officially and personally in the Hon. E. F. Spence, Mayor of the city. They recognize in him an official whose entire administration of public affairs has at all times been characterized by the highest order of ability and integrity and with an eye single to the substantial advancement of the material interests of our beautiful and prosperous city, and one, too, who is fully capable of keeping abreast with his phenomenal growth. I am also aware that the members of the Common Council, by reason of their generally wise and honest administration of municipal affairs, have commanded the confidence of their fellow citizens. But, sir, I am at a loss to understand how such men should be at fault concerning a matter around which clusters so much that is fraught with injury to the public welfare.

Can there be any doubt as to the causes which produced the foul stench arising from our streets during the wet season, and of its deleterious effect upon the public health? Is this condition sufficient to deter searchers of health from remaining among us during such periods? I think the public will heartily agree that these evils should be remedied as soon as it is possible to do so by prohibiting, under severe penalty, the hitching of horses elsewhere than at racks to be erected at the public expense upon the back and less frequented streets of the city. While upon this subject, I would also suggest the passage of an ordinance fixing but one penalty for every runaway, and that should be at the highest grade within the power of the board. One conviction under this ordinance would, in my opinion, settle forever the question of runaways within the corporate limits of our city. A severe penalty should be affixed to and rigidly enforced against any driver who is driving, and in this connection I would invoke special attention to the many dangers attending the driving of delivery express and dairy wagons, many of the drivers being mere boys who when taken special delight in traveling through and turning the corners of our crowded streets at break-neck speed. Also to a class of individuals who race horses, and others who break them in such places.

The protection of life and property, the preservation of the public health, the non-interference with trade and travel by the obstruction of our principal highways, the peace of mind and personal security which should be guaranteed to those who are compelled to travel our streets, by the enactment and enforcement of proper ordinances and the repeal of those which are pernicious or evil in their consequences demand immediate action on the part of our city authorities. PROGRESS.

## STREET PAVING AND OBSTRUCTION.

LOS ANGELES, Nov. 1.—[To the Editor of THE TIMES.] There are two forms of cobble-stone gutters being laid along some of the newly graded streets of Los Angeles. One form is that of a ditch with the bottom out two feet or so from the curb, and the other form is that where the stones are laid in continuation of the street—the lowest point or bottom being at the curb, which really forms one side of the gutter. The latter should be the only form allowed, for various reasons. A street with gutter so laid is an even driveway from curb to curb and is practically from six to ten feet wider than it would be with a ditch along each side, and when a person wishes to drive up to the sidewalk he can do so without danger of pitching headlong out onto the curbside, as when his front wheel drops into the ditch gutter. His horse, too, can stand more comfortably.

The deep ditches do not drain the water from the street as well as would be the case with a good even slope from the center of the street to the curb on each side.

Another thing: Why are merchants permitted to occupy one-half of the street with their delivery wagons? These long wagons are frequently backed up to the curb with the horses' heads in the middle of the street, leaving a very narrow space between

their neck yokes and those wagons on the opposite side for the passage of the street car, and the same applies to carriages that have use for the street.

Still another growl: Is it necessary when erecting a building to occupy one-half of a crowded thoroughfare? It does not so much matter on side streets [First and Fort, for instance], but it seems to me that less of the street and more of the basement might be occupied in many cases. Why not utilize the space within the building for much of the brick, lumber and mortar? Could not a great deal of the latter be mixed there, on a temporary trestle floor, or on the ground?

In some cities ready-made mortar is brought to buildings under construction, by the load, as required. Now, any change from the present mode might not be quite so convenient for the builder, and would cost him a little extra. But what of that? Well, don't give them over one-fourth of the street, anyway. Give some one else a chance.

Now for a final "kick": When one-half a street is closed for paving purposes, it happens that the car-track must be lowered to the grade, why cannot the latter operation be done at night? The labor of the men would cost maybe 50 per cent. more, but it could be applied directly to the work in hand, without interruption. The whole gang would not have to stop work every few minutes to push a car over the unsteady track. I think that this could be done by the city, and a number of men, in one night (after the cars stop) in as two days of such work as they have been doing. Let it be tried the next time, for heaven's sake. I think I speak for several people.

Yours, RUSTICUS.
